Hi Everyone,

Hope you had a good weekend! I see that quite a few participants made use of the we catch up on some of the tutorials. Well done -- I know how hard it can be to find a little during a normal working day.

After completing today's tutorial, you will have all the skills you need to develop an imp user page. Today you should also spend a little time refining the text and layout on you page. Be sure to include the layout features you have learned so far. That is bold, ital headings, lists, internal and external links. (Tutorials 2, 4 & 5).

Let's see who can develop the best User page over today and tomorrow because we'll inviting L4C participants to comment and provide feedback on each other's user pages: 8. I will also take a look at each user page and see who qualifies for certification on o Wikimaster typology <smile>. See: <http://wikieducator.org/WikiMaster>.

INSTRUCTIONS
